ADVANCE

[TASK ID – 002CDE]

ADVANCE TASK 02

DESCRIPTION

- Complete 001CDE task before this. Code a website using HTML. Design some images to beautify website. Explore how to upload it into a GitHub repository and upload it into last created repository in last task using GIT console.

STEPS

- Complete 001CDE.
- Code a website.
- Design images.
- Explore how to upload website into a GitHub repo and upload it into last created repository.

HELP

- The recommend way to upload your files into GitHub using console as following. You created a repo and you committed your first commit. First copy link and download your repo into your pc [https://bit.ly/2JKquV1]. Paste your website's files into that folder. Then re-upload your files into GitHub repo [https://bit.ly/2HECouO].
